

# Privacy Policy

**k12pages respects your privacy. k12pages will not sell, barter, trade, give, or otherwise release any personal information of any nature to anyone expect where required by law.**

## **Parent and Student Accounts**

Parent and student accounts do not require ANY factual information to be initiated. Pseudonyms are acceptable. No address, phone, date of birth, or other personal information is requested. If the parent or student wishes to receive emails from staff members, a functioning email address must be provided. This email address will be viewable only to staff from whom the parent or student wished to receive email. Any email sent to you from the **k12pages** system will be sent to you and you only. **k12pages** does not use :cc or :bcc emails. At any time you can delete your email address from the database, and thus stop receiving emails from the **k12pages** system.

## **Staff Accounts**

Staff accounts require no personal information outside of name and email address. It is assumed that staff would use their school district provided email address versus a private home address

## **Passwords and Logins**

Passwords are stored as encrypted data. Neither passwords nor logins are viewable to anyone, including the webmaster. Webmasters do not have the ability to reissue logins or passwords to students or parents. Webmasters can have **k12pages** reissue a password to a staff member.

## **Student Information in Database**

**k12pages** does not contain student information with one exception. If your school is using Easy Grade Pro and chooses to upload grade data, then student grades will be housed in the database. Grades will be linked to a particular student by a unique student code, login, and password, all of which are designated by the school. Actual student names or other personal information is not required in the database to display grades using Easy Grade Pro.

## **Student Information Posted by Staff**

**k12pages** does not have any control over and is not responsible for the content that its users post. **k12pages** encourages webmasters, administrators, and staff to be fully aware of and abide by any local laws or policies regarding the posting of photos, names, grades, or other personal information of its students.

## **Usage Implies Consent**

By using sites built on the **k12pages** platform you consent to this privacy policy.
